TRICORP

We are Tricorp, a single team of more than 70 employees. We work with others and work together to design and produce the best work wear for every professional, which is the very reason we are in business. Tricorp was founded in 1998 with the aim to supply professionals with work wear that would help them get the most out of each working day.

Tricorp supplies work wear for every professional; not just work wear for men and women, but work wear for professionals in the most diverse fields. We believe that professionals are entitled to demand more from their work wear. It must fit perfectly. Professionals come in all shapes and sizes, but that is not a problem for us, since our efforts are focussed on developing collections of uniform work wear that are available in various sizes and fits. Work wear must be suitable for the work of the professional, so we offer a single collection of work wear that suits each individual.

MALFINI

a.s.

We have been providing Europe with promotional textiles for 20 years already. Since 1999, when our company was founded, we have grown in all directions. We have entered the international market; we have developed new products and brands and we are constantly expanding our portfolio and investing in modern technology. While still being consistent with sustainable development.

Our goal remains the same: To offer our customers high-quality promotional and working textiles and to gradually become the largest distributor and manufacturer in Central Europe. We know that this journey requires a lot of effort as well as consideration and respect towards our partners and the environment.

We are willing to make sure we keep developing and we are glad you are along for the ride!

QUALITY PRODUCT

The quality of our products is by now a staple of ours, being a big focus throughout our system, from manufacturing to shipping.

SALES TEAM AND THE E-SHOP

Our e-shop is always there for you, 24 hours a day, 365 days in a year, along with the support of our international sales team.

MARKETING SUPPORT

We are helping your business with our wide range of marketing tools. Every year, we do more and more, saving you time and money.

LOGISTICS CENTRE

The modern logistics centre in Ostrava is equipped with a photovoltaic system, helping us reach high energy self-sustainability of the building.

It's important for us TO WORK AS ONE TEAM

We are always working hard to bringing you the solutions that best fit your needs. No matter the department, from creatives, the analysts, to the logistics worker, we complement each other and do our job sensibly and efficiently – from product development, to the the package waiting at your door.

EXPLANATION OF THE ICONS

BREATHABLE

VISCOSE – BAMBOO

WATERPROOF

WINDPROOF

EN ISO 20471

UV PROTECTION

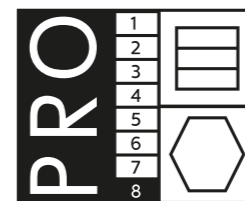

REGULAR

CORDURA

COOLDRY / COOLMAX

INDUSTRIALLY WASHABLE UP TO 85°C

This standard establishes requirements for clothes aimed at emphasising the presence of the user visually and make him stand out more in dangerous situations. Both by day and by night (lighting by headlights of vehicles). The X value indicates what class a product belongs to on the basis of the total surface of the fluorescent and reflecting material. The class can be 1, 2 or 3, with 3 being the highest.

4 WAY STRETCH

EN 343

The standard specifies requirements and testing methods applicable to materials and seams of protective clothes, intended for protection against the influence of precipitation. The X value indicates the water tightness class and the Y value indicates water vapour resistance. In both cases 4 is the highest achievable class.
